FOR IMMEDIATE RELEASE

January 26, 2005

## ***The Coast is Clear...Non-Stop!***

### ***United Airlines unveils new non-stops to Los Angeles and San Francisco***

#### **The New Service**

Forget the layovers...United Airlines just brought San Antonio and the West Coast a whole lot closer together. Two new non-stop flights will soon connect the Alamo City to Los Angeles and San Francisco. South Texas travelers will now be able to avoid the delay as they fly straight from San Antonio International Airport to their choice of two of America's most exciting cities, Los Angeles and San Francisco.

The inaugural flight will taxi toward the runway on April 3, 2005 offering customers plenty of seats in both coach and first-class. The following daily schedule will offer fliers non-stop access to two of California's most popular destinations:

#### **San Antonio - Los Angeles Schedule**

LAX to SAT – Departs 6:10 p.m. Arrives 10:51 p.m.

SAT to LAX – Departs 4:05 p.m. Arrives 5:12 p.m.

#### **San Antonio - San Francisco Schedule**

SFO to SAT – Departs 11:30 a.m. arrives 4:58 p.m.

SAT to SFO – Departs 7:30 a.m. arrives 9:26 a.m.

#### **Only the Beginning**

And once you've reached your California destination the "other side of the world" is just one landing away. Since both Los Angeles and San Francisco offer non-stops to major cities in Asia, South Texas travelers can now visit exciting Far East locales like Tokyo with just one simple stop on their itinerary. "Today's announcement is only the beginning," says Aviation Director Kevin Dolliole. "Our goal is to continue efforts to expand service for our customers

and this announcement is good news for our community, especially businesses that have interests in the West Coast and Orient.”
